

THE HANDMORE

Grip to
any surface
glass or
metal

The Handmore offers a hands free gripping action to hold up side moldings, emblems and more. The Handmore works by suction on any smooth surface whether it is glass or metal.

The arm holds the emblem or molding in place while the adhesive cures. The number of uses for the Handmore is only limited to your imagination. The Handmore is simple and easy to use. The smooth material gives excellent grip and prevents scratches.

- Large 3 inch suction cup
- 3 adjustment positions for better grip
- Smooth material to prevent scratches
